PETITION FOR REVIVAL OF AN APPLICATION  
FOR PATENT ABANDONED UNINTENTIONALLY UNDER 37 C.F.R. § 1.137(b)  
STATEMENT OF FACTS

Mail Stop Petition  
Commissioner for Patents  
P. O. Box 1450  
Alexandria, VA 22313-1450

Sir:

In accordance with 37 C.F.R. § 1.137(b), the following is a statement of delay caused by unintentional circumstances.

1. The present application was filed on 14 May 2004 as an international application under the PCT, claiming priority from Indian Patent Application No. 504/MUM/2002. The priority date for the application is 5 June 2003.
2. Applicant designated the U.S. Patent and Trademark Office as a Designated Office for entry of the U.S. National Stage under Chapter I of the PCT as a non-provisional patent application.
3. The deadline to enter the U.S. national stage was 5 December 2005, thirty (30) months after the priority date.
4. Applicant did not complete the requirements to enter the U.S. national stage. Applicant's U.S. counsel was provided with instructions on January 2, 2006, past the

priority deadline of 5 December 2005. Applicant did not intend to send the instructions past the deadline.

5. The Application was constructively abandoned as of December 5, 2005, the last day to enter the U.S. national stage.
6. A Notice of Abandonment has not been received.
7. The present petition is less than three months after the date the U.S. Patent and Trademark Office sent the notice of abandonment to Applicant's attorney because a Notice of Abandonment has not yet been sent.
8. The present petition is less than one year after the date of actual abandonment by the U.S. Patent and Trademark Office.
9. The entire delay in filing the required reply from the due date for the required reply until the filing of a grantable petition under 37 C.F.R. § 1.137(b) was unintentional.

Applicant petitions for revival based upon unintentional delay, and Applicant has included a proper response, comprising a transmittal of the Entry into U.S. National Stage application requirements attached hereto with the required fees. Applicant files the required reply to secure revival of the patent application for entry into the U.S. national stage and eventual consideration and issuance by the U.S. Patent and Trademark Office.

The present Petition for Revival is less than one year of the actual abandonment and less than three months after receiving notice of Abandonment. The entire period of delay, until the filing of the present grantable petition, was unintentional.

Applicant respectfully requests granting the Petition to Revive because the Applicant never intended for the application to be abandoned. Applicant respectfully contends that the application is now in a proper condition for entering the U.S. national stage under Chapter I of the PCT. The government fee of \$1500 is attached.

Respectfully submitted,

**WARNING:**

Petitioner/applicant is cautioned to avoid submitting personal information in documents filed in a patent application that may contribute to identity theft. Personal information such as social security numbers, bank account numbers, or credit card numbers (other than a check or credit card authorization form PTO-2038 submitted for payment purposes) is never required by the USPTO to support a petition or an application. If this type of personal information is included in documents submitted to the USPTO, petitioners/applicants should consider redacting such personal information from the documents before submitting them to the USPTO. Petitioner/applicant is advised that the record of a patent application is available to the public after publication of the application (unless a non-publication request in compliance with 37 CFR 1.213(a) is made in the application) or issuance of a patent. Furthermore, the record from an abandoned application may also be available to the public if the application is referenced in a published application or an issued patent (see 37 CFR 1.14). Checks and credit card authorization forms PTO-2038 submitted for payment purposes are not retained in the application file and therefore are not publicly available.
